

Syllabus for ATMS 310 – Kinematics and Dynamics – Spring 2024

Date	Topic	Reading/Homework*
W 17 Jan 2024	First day/Introduction	Holton (2004), Chapter 1
M 22 Jan	“	
W 24 Jan	“	Project #1 due
M 29 Jan	Basic Conservation Laws	Holton (2004), Chapter 2
W 31 Jan	“	Quiz #1
M 5 Feb	“	Project #2 due
W 7 Feb	Basic Equation Applications	Holton (2004), Chapter 3
M 12 Feb	“	
W 14 Feb	“	Project #3 due, Quiz #2
M 19 Feb	Circulation and Vorticity	Holton (2004), Chapter 4
W 21 Feb	Lecture/review	
M 26 Feb	Mid-term I	17 Jan – 21 Feb material
W 28 Feb	Circulation and Vorticity	Holton (2004), Chapter 4
M 4 Mar	“	Project #4 due
W 6 Mar	Quasi-Geostrophic Analysis	Holton (2004), Chapter 6
M 18 Mar	“	
W 20 Mar	“	
M 25 Mar	“	Quiz #3
W 27 Mar	“	
M 1 Apr	“	Project #5 due
W 3 Apr	Lecture/review	
M 8 Apr	Mid-term II	28 Feb – 3 Apr material
W 10 Apr	Atmospheric Waves	Holton (2004), Chapter 7
M 15 Apr	“	
W 17 Apr	“	Project #6 due
M 22 Apr	Baroclinic Instability	Holton (2004), Chapter 8
W 24 Apr	“	Quiz #4
M 29 Apr	“	Project #7 due
W 1 May	Reading Day	
Final Exam Week	Final Exam	17 Jan – 29 Apr material

*assignment completed before class meets on this date

Description

A course that focuses on understanding basic ‘ingredients’ of the atmosphere and how, combined in the proper amounts and at the right time, can result in the development of storms bringing hazardous weather. Tools will be developed that help with both the diagnosis and prognosis of these atmospheric ‘ingredients’ in the mid-latitudes.

Student Learning Outcomes

- develop the tools to begin building an accurate conceptual model of atmospheric structure and evolution valid on the synoptic-scale
- improve problem-solving skills by applying knowledge to actual weather case studies

Outline

Introduction {Holton, Ch. 1}
Basic Conservation Laws {Holton, Ch. 2}
Basic Equation Applications {Holton, Ch. 3}
Circulation and Vorticity {Holton, Ch. 4}
Quasi-Geostrophic Analysis {Holton, Ch. 6}
Atmospheric Waves {Holton, Ch. 7}
Baroclinic Instability {Holton, Ch. 8}

Grading

Projects	15%
Quizzes	5%
Exam I	25%
Exam II	25%
Final Exam	30%
Total	100%

92% < total score ≤ 100%	A
90% < total score ≤ 92%	A-
88% < total score ≤ 90%	B+
82% < total score ≤ 88%	B
80% < total score ≤ 82%	B-
78% < total score ≤ 80%	C+
72% < total score ≤ 78%	C
70% < total score ≤ 72%	C-
68% < total score ≤ 70%	D+
60% < total score ≤ 68%	D
total score ≤ 60%	F

Projects

Project assignments consist of “work ‘em out” (WEO!) tasks whose answers each student will hand in *individually*. On occasion, the project assignment will involve the creation of figures as part of your response, utilizing (or developing) your ability to produce graphics. You are encouraged to form study groups as a means to brainstorm the solution to projects. However, each student is responsible for understanding the concepts covered in each project as they will re-appear on quizzes, mid-terms, and the senior comprehensive exam.

Quizzes

Quizzes will be given occasionally, at the end of the class period during those weeks when we are in the midst of lecture material (non-exam weeks). Quizzes are given to help the student gauge their understanding of the weekly lecture material and the individual “work ‘em out” questions on the projects. The lowest quiz score will be *dropped* and not count toward the final course grade.

Exams I and II

The mid-term exams (I and II) will be primarily testing new material introduced since the previous exam or since the start of the semester.

Final Exam

The final exam is a *comprehensive* exam in which all the material contained in the entire course is testable.

Assignment/Quiz/Exam Policy

Assignments are to be handed in before the start of lecture on the date they are due. Assignments handed in after the start of lecture are considered late until 4:00 pm on the day they are due and will have an automatic 10% deduction from their final score. Assignments handed in after 4:00 pm on the day they are due will receive no credit.

Quizzes and Exams are written tests and will be taken on the date they are scheduled, unless circumstances (e.g. medical or loss in the family) warrant. Make-up quizzes and exams for special circumstances will consist of an individual oral graded question and answer session at a mutually agreed upon time outside of the usual class meeting time.

Extra Credit

Participate in the national weather challenge forecast competition and earn *five* points on the ATMS 310 final exam. “Win” the forecast contest for all students enrolled in Kinematics and Dynamics and earn *seven* points on the final exam.

Instructor

Textbook

“An Introduction to Dynamic Meteorology” (fourth edition) by J. R. Holton © 2004.

Many concepts in this course are described in various COMET modules

(<https://www.meted.ucar.edu/index.php>). It is worthwhile getting a MetEd (COMET) account, if you don't already have one.

Office of Academic Accessibility

UNC-Asheville values the diversity of our student body as a strength and a critical component of our dynamic community. Students with disabilities or temporary injuries/conditions may require accommodations due to barriers in the structure of facilities, course design, technology used for curricular purposes, or other campus resources.

Students who experience a barrier to full access to this class should let the professor know, and/or make an appointment to meet with the Office of Academic Accessibility as soon as possible. Learn more about the process of registering, and the services available through the Office of Academic Accessibility here: accessibility.unca.edu. Please use this link <https://universityofncasheville.setmore.com/> to schedule an appointment.

While students may disclose disability at any point in the semester, students who receive Letters of Accommodation are strongly encouraged to request, obtain and present these to their professors as early in the semester as possible so that accommodations can be made in a timely manner. It is the student's responsibility to follow this process each semester.

Sexual Harassment and Misconduct

UNC Asheville is dedicated to cultivating and maintaining a safe, respectful, and inclusive environment, free from harassment and discrimination. We strive to ensure that all have equal access to the educational and employment opportunities the University provides. If you or someone you know has been affected by sexual or gender-based harassment, including sexual

assault, dating or domestic violence, or stalking, please know that help and support are available. UNC Asheville strongly encourages all members of the community to take action, seek support, and report incidents of sexual harassment to the Title IX Office. You may contact the Title IX Office or Heather Lindkvist, the Title IX Coordinator, directly at 828.232.5658 or at titleix@unca.edu or learn more by visiting titleix.unca.edu.

As a faculty member, I am a “responsible employee” and private resource. This means that if you share any information or discuss an incident with me regarding sexual or gender-based harassment, I must disclose this information to the Title IX Coordinator. Our goal is to ensure you are aware of the range of options available to you and have access to the resources you may need.

If you wish to speak with a confidential resource, contact University Health and Counseling Services at 828.251.6520. Off-campus confidential resources include Our Voice (24-Hour Hotline at 828.255.7576) and Helpmate (24-Hour Hotline at 828.254.0516).

Academic Alerts

Faculty at UNC Asheville have access to an Academic Alert system. The purpose of this system is to communicate with students about their progress in courses. Alerts can indicate concerns (e.g., academic difficulty, attendance problems) or reflect on the good work you’re doing. Professors use the Alert system because they are invested in student success and want to encourage open conversations about how students can improve their performance. When a faculty member submits an alert that expresses a concern, the student receives an email from Academic Advising notifying them of the alert. If a student receives three or more alerts, they will need to meet with a Student Success Specialist in the Academic Success Center. The instructor may also request to meet with the student to discuss the alert. It is in the student's best interest to address the alert quickly, as students who do so are more likely to earn credit for the course. Questions about the Academic Alert system can be directed to Anne Marie Roberts (amrober1@unca.edu) in the Academic Success Center.

University Writing Center

The University Writing Center (UWC) supports writers in one-on-one sessions lasting 10 to 45 minutes. Consultants can help writers organize ideas, document sources, and revise prose. If you visit the UWC, bring a copy of your assignment, any writing or notes you may have, and the sources you are working with. Make an appointment by visiting writingcenter.unca.edu and clicking on "Schedule an Appointment," or drop in during open hours Monday-Friday.

Academic Honesty

The university’s policy on academic honesty states that “As a community of scholars dedicated to learning and the pursuit of knowledge UNC Asheville relies on the honesty and academic integrity of all the members of its community. Any act of plagiarism or cheating is academic dishonesty. A person who knowingly assists another in cheating is likewise guilty of cheating. According to the instructor’s view of the gravity of the offense, a student may be punished by a failing grade or a grade of zero for the assignment or test, or a failing grade in the course. If it seems warranted, the instructor may also recommend to the Provost dismissal or other serious university sanction.” I expect that you will exercise integrity in all quizzes, exams, and written assignments. Please email me or pop in during student hours if you have additional questions or need clarification on any point.
