NOTES:

- Additional recommended courses for students in the broadcast meteorology concentration include ATMS 326, 345, 355, or 420; CHEM 132; PHYS 222; and broadcast journalism courses.
- Consult the list of approved courses to satisfy the Humanities, Social Science, and Foundations of American Democracy components of the Core Curriculum.
- DRAM 213 satisfies both the major requirement and the Arts component of the Core Curriculum
- Students may complete the research or internship requirement over multiple semesters, but the number of research or internship credit hours must sum to at least three.
- Refer to the current catalog for the frequency of elective course offerings (some courses are offered every other year or on a Fall/Spring rotation) and specific prerequisite requirements for each course. While you may use the above as a planning tool, please work with your academic advisor to create a customized plan to meet your needs and graduation timeline.
- Students who wish to enroll in MATH 191 must either have college credit for pre-calculus (MATH 167) *or* take the math placement exam via OnePort.
- If possible, general electives can be taken at any time in consultation with your academic advisor. One of the electives can be a 2-hour or a 3-hour course. Thus, the total hours to degree could vary from 120 to 121.

Degree Requirements:

- Credits in the major and correlate courses: 72 HOURS
- Required major/correlate courses that also fulfill LAC requirements: 11 HOURS
